PROFESSIONAL SUMMARY

BS Information Technology undergraduate at the International Islamic University Islamabad with practical experience in full-stack web development, AI-driven automation, and cross-platform mobile development. Skilled in building production-ready systems using React, Node.js, Express, and Supabase. Holds multiple certifications from Murree Development Forum and Murree Incubation Center, with a strong drive to solve real-world problems through technology.

WORK EXPERIENCE

Web Development Intern

Nov 2025 — Feb 2026

Remote Internship

Remote · Online

- Developed **Quad Solutions** — a full-stack Medical Credentialing Management System with role-based access, document uploads, and real-time status tracking using React, Node.js, Express, and Supabase.
- Built a complete **Online Shopping Store** with product listings, cart functionality, and responsive UI using modern web technologies.
- Designed and consumed RESTful APIs with JWT authentication, input validation, and secure middleware layers.
- Implemented admin dashboards with analytics, user management, and application review workflows.
- Applied security best practices including CORS configuration, rate limiting, and environment-based config management.

PROJECTS

Quad Solutions — Medical Credentialing Management System

[React](#) · [Node.js](#) · [Express](#) · [Supabase](#) · [PostgreSQL](#) · [Tailwind CSS](#)

Production-ready full-stack web application for managing medical credentialing workflows end-to-end. Features role-based authentication (Admin/User) via Supabase Auth, secure PDF/image document uploads to Supabase Storage, real-time application status tracking, admin analytics dashboard, and a RESTful API server with JWT middleware, rate limiting, and input validation.

Online Shopping Store

[React](#) · [Node.js](#) · [CSS](#) · [REST APIs](#)

Fully functional e-commerce web application featuring product browsing, dynamic cart management, responsive UI design, and API-driven product data. Built with a component-based React frontend and an Express backend.

Academic Mini-Projects

C++ · Python · HTML · CSS · JavaScript

Collection of utility programs and web apps built to strengthen core skills: a detailed **Family Tree** (C++, OOP), an interactive **Career Roadmap** (HTML/CSS/JS), a **GPA/Grade Calculator** (Python), and a **Weather Checking App** consuming a live weather API with JavaScript.

Cross-Platform Mobile Application

Flutter · Dart · REST APIs

Developed a cross-platform mobile application for Android and iOS using Flutter. Implemented state management, REST API integration, and responsive UI components as part of Flutter App Development certification training.

TECHNICAL SKILLS

Languages	C++, Python, Java, JavaScript, Dart, HTML5, CSS3
Frontend	React.js, Tailwind CSS, Responsive Design, REST API Integration
Backend	Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware
Database	PostgreSQL, Supabase (Database · Auth · Storage)
Mobile	Flutter (Android & iOS), Cross-Platform Development
AI / Automation	AI Integration, Automation Workflows, ML API Consumption, Prompt Engineering
Tools	Git, GitHub, VS Code, Postman, Supabase Studio, Figma (basic)
Core Concepts	OOP, Data Structures, RBAC, File Handling, Security Best Practices

EDUCATION

Bachelor of Science — Information Technology (BS IT)

2025 — Expected 2029

International Islamic University Islamabad (IIUI)

Islamabad, Pakistan · 3rd Semester

- ▶ Relevant coursework: Programming Fundamentals (C++), Object-Oriented Programming, Data Structures, Web Technologies, Database Systems.
- ▶ Pursuing industry certifications in AI and software development alongside formal academic studies.
